

IFSECWESTAFRICA

15th-16th February 2011
EKO EXPO Centre, Lagos, Nigeria
WEST AFRICA'S FIRE SAFETY AND SECURITY EXHIBITION

Dear Exhibitor,

Please take note of the important details below should you be intending to sell goods off of your stand, the following would apply:

Please note that the following procedure would apply.

A customs guarantee has been lodged for USD 6 million to cover the temp importation of materials for display purposes only. In order to do this and to cover guarantee costs we charge a non-refundable customs bond fee based on the CIF value. Under terms and conditions of the guarantee we avoid pre shipment inspection services handled by COTECNA/SGS as is a temp import provided the goods are re-exported.

For us to discharge the liability on the guarantee Cargo has to be re-exported. In the event of a sale CARGO WILL BE UPLIFTED AND TAKEN UNDER OUR CUSTODY TO A BONDED WAREHOUSE AT THE SHOW CONCLUSION. Thereafter, the buyer/seller will have to first organize inspection services against purchase invoice. A new M Form will be applied for through the National Bank of Nigeria in the buyer's name. They will have to supply company registration number and cert of incorporation. In addition they have to supply Tax clearance certification. After all of this an entry is done diverting the goods to home use. Once duties and taxes are paid by the buyer cargo can be released.

NOTE THAT NOTHING CAN BE SOLD DIRECTLY FROM STANDS AND TAKEN BY A BUYER FROM ANY STAND AS WILL BE UNDER BOND HEFTY FINES WILL BE ADMINISTERED IN THE EVENT OF DEFAULT.
